LETTER FROM THE PRESIDENT

Dear Friends and Colleagues,

Behind of us is a year of austerity and financial obstacles which we managed to overcome at the best possible manner. With the help from our long-time partners we managed to sustain our work and finish 2012 with vast number of implemented activities and with evident results. Montenegro's path towards Euro-Atlantic family is unstoppable. Even though, a lot has to be done in the forthcoming years in order to achieve full-membership in NATO Alliance.

It is essential, to continue, even more intense, with reforms of all segments of the society. Not because of NATO or anybody else, but because of ourselves and because there is a need for such a reforms in this country. Having in mind that public opinion indisputably plays a very important role regarding Montenegro's membership in NATO raising public awareness will be one of our top-priorities in the forthcoming period.

Challenges are ahead of us, but ambition is not missing. We are committed to achieving our goals in order to transform Montenegro into a modern, safe and secure country.

I would like to use this opportunity to express my sincere gratitude and congratulations to all our partners and employees for the remarkable results achieved in 2012, and with the hope that we will continue to achieve even better results.

Sincerely,

A handwritten signature in blue ink, which appears to be 'Savo Kentera'. The signature is fluid and cursive, written over a horizontal line that extends across the width of the signature.

Savo Kentera
President

PLAN OF ACTIVITIES FOR 2013

ATLANTIC TREATY ASSOCIATION GENERAL ASSEMBLY

The General Assembly is the yearly international flagship event of the Atlantic Treaty Association (ATA). As the ATA represents a membership-based organization with national chapters in 37 countries, this event represents a rare, yet highly important occasion for a large part of the ATA-affiliated Atlanticists from all over the world to contribute to specific NATO Public diplomacy campaigns that target policy makers, journalists, experts and the successor generation in a meaningful discussion on NATO and the future of Cooperative Security.

This General Assembly aims to offer a political as well as scientific contribution aimed at promoting an effective approach to cooperative security in the Euro-Atlantic region and beyond. Partner countries, with particular reference to the Mediterranean and the Middle East. Finally, the General Assembly aims to consolidate a network of researchers and experts on cooperative security, both at the senior and youth levels.

58th General Assembly of the Atlantic Treaty Association (ATA) will be held February, 3-6, 2013 in Rome, Italy. On this occasion the new ATA presidency will be elected.

Its goal is to encourage significant discussion with a wide range of opinions from the key security and foreign policy figures regarding the most important issues in the field of international security. The next 2BS Forums' main focus will be on partnerships globally. These partnerships are changing rapidly and create new platform for international security grand chessboard. Main topics that will be discussed are: Partnership and cooperation between intelligence services, Middle East, Partnership building in Mediterranean etc.

VIII SCHOOL FOR INTERNATIONAL SECURITY

The continuation and deepening of reforms is a prerequisite for moving forward in the process of the Atlantic integration as well as pursuing the path of European integrations. Therefore, if this country is to develop and imbed a true reforms it will require trained civilians with developed ability and knowledge of the work, in addition to their already evident energy and dedication. Bearing all above mentioned in mind the Atlantic Council of Montenegro recognizes the need for the further education.

Participants will be young public servants currently involved in the security sector reform processes and students studying these matters which are the future engine of these processes.

RAISING PUBLIC OPINION IN MONTENEGRO

This project is follow up of a conference “Communicating NATO – Working Together to raise Public Awareness in Montenegro” held in September 2010. At that conference recommendation and conclusions concerning improvement of Communication Strategy for Euro-Atlantic integration were identified and presented. Government of Montenegro pledged to implement these recommendations and change Communication strategy in accordance with these recommendations.

Analysis of current achievements and specific obstacles, open dialogue between all subjects involved in this process is one of the goals of this conference. It is necessary to recommend concrete actions which will be efficient in raising public opinion in Montenegro.

Shortcomings of the current communication strategy are obvious, and activities of the Government's team dealing with Euro-Atlantic integration processes are not effective. CSO structures are not coordinated, and media very often doesn't report objectively and sufficiently about these issues. Montenegro's academia is indifferent regarding NATO integration processes.

All of these lead to the stagnation and decreasing of public support in Montenegro concerning Euro-Atlantic integration process. This conference will point out the obstacles and concrete solutions for raising public opinion in Montenegro as well as for improvement of Communication Strategy on Euro-Atlantic integration.

YOUTH ATLANTIC SEMINAR

Youth Atlantic Seminar is an annual event that brings together a large number of young people from all around the world. Youth Atlantic Seminar is held shortly before 2BS Forum where young academicians have the opportunity for exchange views on different topics. A diverse group of young people from abroad and the participation of high level partners is the guarantee of high-quality discussions. The 2BS Forum as well as the Youth Atlantic Seminar represents the irreplaceable experience for those young academicians. Broadening youth knowledge is precondition for strengthening international security having in mind that youth is the future driving force of every society.
